Model ICE-3 has two 12" x 20" ice pans with individual dispensing mechanisms and separated by a removable plexiglas partition.

ICE

Units

SPECIFICATIONS

Model ICE cabinet style, mobile ice dispenser.

FRAME AND BODY: The frame is constructed of all welded heavy gauge stainless steel. Exterior sides are 20 ga. stainless steel and the top is 16 ga. stainless steel. Interior liner is 20ga. stainless steel with valve at one end. The entire unit is insulated. The unit is provided with insulated stainless steel sliding covers, a stainless steel tubular push handle with donut bumpers on each end, and a wrap-around, non-marking vinyl bumper.

DISPENSING MECHANISM: The self-leveling assembly consists of a 3" deep removable stainless steel ice pan mounted on a calibrated spring assembly. The pan is perforated for drainage. The entire assembly can be removed for cleaning.

CASTERS: The unit is mounted on four 5" diameter, swivel casters.

LIMITED WARRANTY: PIPER PRODUCTS warrants to the original purchaser parts and labor for a period of twelve (12) months from the date of purchase. See manufacturer's complete warranty for details.

It is our policy to build equipment which is design certified by companies that have been accredited at the Federal Level by the Occupational Safety and Health Agency (OSHA) and ANSI as a National Recognized Testing Laboratory. These companies include CSA International, Underwriters Laboratories, and the National Sanitation Foundation. However, a continuing program of product improvement makes it necessary to submit new models to the agencies as they are developed. Consequently, all models may not bear the appropriate labels at all times. We reserve the right to change specifications and product design without notice. Such revisions do not entitle buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment. Information is not for design purposes.
