

618-N

Piper's Nesting Racks offer a clever, workable solution to the problem of finding storage for empty racks. Piper's unique Nesting Frame design provides sturdy easy access racks that, when empty, nest snugly within the footprint of one another, reducing multiple rack storage space.

One person can now move multiple empty racks. The Frame interlocks, holding the Racks together while they are moved through your facility.

For more than 40 years Piper Products has manufactured food transport equipment for the bakery and food service industries. Piper is proud to have the highest standards in the industry.

STANDARD FEATURES

- Space Saving
- Easy Maneuverability of Multiple Racks
- 18" x 26" sheet pans

WARRANTY

- One year parts and labor. Warranty is detailed on inside front cover of the price list
