Polar Vortex

Piper Products Polar Vortex Merchandisers provide self-service for a wide variety of foods. Adjustable shelves are designed to accommodate 18" x 26" sheet pans and are mounted on 3" centers. Shelves can be displayed level or at a 15° angle for easier access. The refrigeration system is carefully engineered to efficiently hold foods at temperatures that are in accordance with the latest food safety standards.

Construction

The cabinet is constructed of rigid, moisture resistant PVC composite panels that will not warp, swell or deteriorate from water contact. The color of the panel goes through to the core to hide any mars or scratches. Exterior panels are clad in stainless steel. The interior display area is built of stainless steel and includes 15 removable shelves. An LED Light is included in the top. End panels are tempered glass.
